Universal Particularism

Intellectualism over Expertise

Promethean Nuclear Power

Truth through Paradox

Elite Symbolic Communication

*Universal particularism stands for the aim of assuring the vitality of each individual unit of a given set. Universal concepts can and will survive only through the acknowledgement of its foundational parts.<sup>12</sup>*

*Intellectualism over expertise grants value to the Renaissance man as opposed to the glorification of the modern Fachidiot.*

*Promethean nuclear Power believes in the coming of a Promethean nuclear destiny, where energy is not derived from limited sources but through the paradoxical extraction of power that emerges due to the splitting of the atom.*

*Truth through paradox is a fundamental principle under which a humble investigator collapses existing paradigms to reach what can be grasped of the reality at hand.<sup>3</sup>*

*Elite symbolic communication represents the desirable mode of action, mere words transfer information, but symbolism transfers the reality of the underlying esoteric meaning.*
